Commencement-Bay at the Virginia | The Settlement by the Berlin Congress.

[New York Tribune, 3d.]

The Berlin congress has nearly completed the new map of European Turkey. Ignatieff's Bulgaria has been divided, Bosnia nized, the strip of Bessarabia which Russia lost in 1856 has been restored to her, the Dobrudja has been annexed to Roumania, and the frontiers of Montenegro and Servia have been readjusted. We do not yet know what is to be the precise fate of Eastern Roumelia, and are still disposed to regard the separation of the Balkan provinces as an ill-advised compromise. In other respects the Congress has acted with sogacity and wisdom. In dictating the conditions of peace at San Stefano Russia was unduly generous to the southern slavs. The Servian and Montenegrin frontiers have been hedged in, but substantial conquests still remain. The heroic mountaineers, at the close of their four-century war with the Turks, have won their heart's desire -the harbor of Antivari. While the unjustifiable pretensions of Austria in this quarter have been resisted, the military occupation of the Bosnian provinces has been sanctioned-a measure that will result in unmixed good. The retrocession of Bessarabia has been denounced in England as an act of barefaced robbery, although the Government was disinformed before the Grand Duke crossed the Danube that this would be one of the conditions of peace. Russia gets back in her hour of triumph what Europe took from her in her hour of defeat. The plenipotentiaries have made a virtue of necessity and arranged an even exchange of territory. A strip at the base of the Dobrudja has been added to the section set apart in the treaty of San Stefano, and a new barbor has been acquired, so that Roumania wili not suffer in a material sense.

GERMANY AND THE POPE .- London, July 3.-Tuere is much difference of opinion among the Berlin politicians regarding the intention of the Government in publishing the letters of the German Emperor and Crown Prince to the Pope in reply to his notification of his accession. Some persons think it is a sign that peace will soon be concluded between the Church and the State, while others put the opposite interpretation upon the event.

In the opinion of the Berlin correspondent of the Times, there is little doubt that President, who spoke of the trials the official usages in Berlin would have prohibited the publishing of such important to those facing the Wyoming pioneers a ence was conferred on Mr. E. The number of reapers already reported destroyed is not less than twenty or thirty. A few of the more timid farmers are discarding machines and cutting their grain by hand. Most of them, however, will not heed the incendiary notices, and will protect their property at all bazards. Any man who desires work can readily secure it now in the harvest-field. In some places hands are scarce at \$1.50 per day and board. Farmers think the breador-blood plea of barn-burners is not well founded.

# The Great Race.

Louisville, July 4 .- At 10 o'clock this morning the streets were well-nigh impassable. The buildings were handsomely decorated and unparalleled. Much interest was felt in the great event of the day. The first race was a dash of a mile and three quarters, and was won by Dan K, beating Harkaway easily. Time, 2:184. The second race was a sweepstakes for two-yearolds, and was won by Goodnight; with Kenton second and Charlemagne third, Time, 1:20. Louisville, July 4 .- When the drum

tapped for the great four-mile race to-day Ten Brocck and Mollie McCarty went by the string like twin bullets. Ten Broeck had the outside of the track, and the mare being inside ran to the front from the start, and at the first quarter they were side by side and going gallantly on to victory. The half-mile did not change the position, and as they moved onward the 30,000 spectators were held in perfect silence. Between the half and three-quarter stretch the mare got her nose ahead, and a great cheer went up; and then as they came past the string and she again appeared in front another cheer was heard-the mare running easy. Ten Broeck was being driven hard. In the second mile Mollie seemed to be moving with such ease and Ten Broeck labored so hard that Kentuckians wavered by thousands, and the certainty of California winning produced a dead silence at the half-mile post. By the second mile Walker urged Ten Broeck quite bard, and Howsen permitted him to come up side by side. A Kentucky yell, such as was heard for miles, rent the air. So they ran past the threequarter post, and coming into the stretch Mollie McCarty brushed ahead again, passing the grand-stand a half-length in the "She will win, sure," was heard in all directions, and more confident grew the cry as her easy movement continued. She passed the quarter in the third mile still leading, but the horse hung on to her close, and made pace so murderous that many knew his bottom would have an effect. Ultimately, at the three-eighth pole of the third mile, McCarty let up in her PROFESSOR AITKEN, M. D., F. R. The three erews were in first-class condition, but the RICHMOND LIVE-STOCK MARKET. ontest was, however, somewhat disappointing, Shoewaecaemettes wining easily. The Columbia was fouled by the Dublin, and was badly washed. Yet, despite this misfortune, she came in second. The Shoewaecaemettes were as strong at the finish as at the start. They steered badly at first, although subsequently they retrieved themselves. The Columbias also steered poorly, almost running into the bank at the first curve. The referee declared that the foul, which destroyed the Columbia's opportunity, was made by the Dublin crew. The third race of the day was the second heat for the Diamond challenge sculls, in which three contestants took part-viz. : Payne, of Mousley Lowndes, of Oxford, and George Lee, of Union Athletic Club, Boston. The fight was a close one, and Lowndes reached the post first; Payne, second; Lee, third. Lee was two hundred yards behind. The race was a fair one in every respect, no foul being recorded. The second trial-heat for the Visitor's challenge-cup (value sixty guineas), was called promptly, and the three crews drew at once into line; the University College crew, of Oxford, having the inside station near the Berks shore, the Columbia the centre, and the famous Jesus College crew, of Cambridge, having the outside. The same station was held by the Shoewaecaemettes in the previous race. The Columbia won easily after a gamely-contested race. Happily the Columbia has won a place in the final heats to be rowed to-morrow, notwithstanding her mishap in the Steward's-cup race, so that America, after all, is to be as fully represented in the final and most important contests of to-morrow as her most boastful rival. The Columbias rival in the final heat for the Visitor's challenge cup will be the Hereford crew, of Oxford. The Columbias won by about two lengths in 7½ minutes—the fastest time the race was ever rowed in—notwithstanding the fact that they were fouled by the Jesus crew just before reaching the tinishing line.

Prince Bismarck's Reminiscences.

LONDON, July 4 .- The following are additional points of Prince Bismarck's conversation with a correspondent of the Times on Tuesday: The Prince said that he saw that England would go to war on the question of Bulgaria, and therefore when (on June 21st) the negotiations between England and Russia broke down be hastened to the rival plenipotentiaries and caused them to renew their negotiations. Bismarck supposed that an agreement could be readily | 4@14c come to on the question of the frontiers of Roumelia, etc. He did not believe that any serious difficulty could arise relative to

Greece. In relation to Batoum, Bismarck said the fact must not be forgotten that Russia had two bonds concerning it; one from Turkey and the other from England. The Czar had also spoken out on the subject. It had always been asserted, even before England entered into an agreement, that she would never war for Batoum. He trusted she would not do so more readily now. He did not think that Russia would be obliged to besiege Batoum if the congress conceded it to her. She would probably content herself with blockading it.

# The Berlin Congress.

Berlin. July 4.—The congress sat three hours to-day, chiefly occupied, it is understood, with questions about the Danube and strong, and then killed himself. McGill the indemnity to be paid Russia. The chief points in regard to the former were arranged by providing for the free navigation instead of the neutrality of the Danube. thus throwing it open to the commerce of all nations. It appears that neither Batoum nor the Greek question was touched upon. Fears are expressed that the difficulties concerning the former may cause a prolongation of the congress.

> Austria's Invasion of Turkey. London, July 4.—The Daily Telegraph's Vienna dispatch states that the Austrians have arranged to enter the Turkish provinces at two points simultaneously, advancing slowly, so as to give the Turks time to retire.
